## REDEFINING SMART WATCHES

After more than a decade of advancement in the smart watch industry, we recognized a lack of design uniqueness. Therefore, we set out to create a distinctive and personalized smart watch that breaks away from the ordinary, giving birth to our KAVVO HOP Smart Watch series.

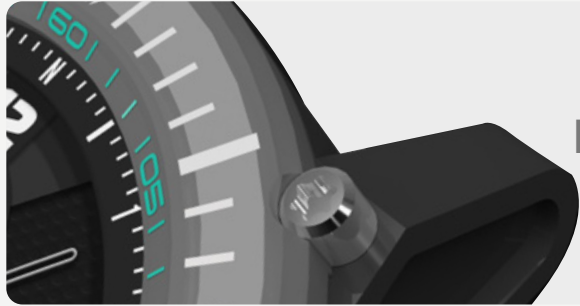

## SUPER-GLOW

KAVVO HOP boasts a "Super-Glow" inner bezel, consisting of dozens of micro LEDs, ensuring users can clearly see the outer ring even in the dark, and empowering our users to unleash their personality to the fullest.
